Bringing 35 years of industry expertise

in designing, prototyping and
manufacturing CABINETS

ENCLOSURES, KIOSKS

JUNCTION BOXES

RACKS

hitechmi.com

With a commitment to precision engineering, innovation, and client-centric solutions, at HITECH METAL INDUSTRIES LLC, we are here to serve diverse industries with our high quality products in affordable costs.

We are with you from concept development through prototyping through mass production if you are looking for custom-built solutions as per the project specifications.

Metal Enclosures:

- Stainless Steel Enclosures
- Aluminium Double Wall Enclosures
- Steel Enclosures in Form 2, Form 3 Form 4 type 6 constructions
- Enclosures for Row DB, DB, SMDB, MDB MCC, Capacitor banks, Synchronizing panels and Feeder pillars
- ONU / ONT / GRMS / Cabinets
- Meter cabinets & junction boxes
- Enclosures for Relay and Control panels
- IP 55/IP 66 Enclosures

We specialize in the design and production of robust and customized metal enclosures tailored to meet the unique specifications of our clients. Our enclosures offer optimal protection for sensitive equipment in various industrial applications, with IP ratings as per desired requirements. Following IEC and NEMA standards we build Form 2, 3 and 4 type extendable cabinets to suit the assemblies.

Racks & Protective Cabinets: Engineered to meet the demands of modern data centers, technology infrastructure and integration, we provide scalable and efficient solutions. Give us the in-puts, with pleasure we can propose a design-prototype-product solution exceeding your expectations.

Our cabinets for Copper Cord Connection Patch panels, Fiber Optic Consolidation, and Multi User Telecommunication Outlet Assembly are being widely used in various projects.

Control Desks, Junction Boxes: Designed for durability, reliability and safety, our tailor made control desks and junction boxes will be a valuable advantage for the most demanding projects.

Crafted with precision to accommodate the evolving needs of control room environments, offering ergonomic designs and intuitive functionality, our control desks enhance operational efficiency in critical control applications.

Outdoor cabinets:

Our outdoor cabinets in various constructions and material ensure ultimate protection in the severe weather conditions, protecting the mounted equipment from heat and dust and widely used in the Oil & Gas and petro-chemical industries. (Feeder Pillars, Traffic Control Cabinets, Security & Surveillance Control Cabinets etc)

Face-plates, trays, drawers, cable managers for 19" racks

Call us for any accessories for 19" racks

Kiosks, Screen Casings

Struggling to find a kiosk or casing suitable for your screen?

We are here to make them in the shortest period.

Skids, Industrial Kiosks, Canopies for generators

Want to mount valuable equipment on a skid or within a metal kiosk?

Let us discuss and we make a proposal over a cup of coffee.

Engineering Excellence: Backed by a team of skilled engineers and technicians, we uphold the highest standards of precision and quality in our manufacturing processes.

Customization: We understand that every project is unique. Our commitment to customization allows us to deliver tailor-made solutions that perfectly align with the specific requirements of our clients.

Innovation: Embracing the latest technological advancements, we continuously innovate our product lines to stay ahead in providing cutting-edge solutions for evolving industry needs.

Quality Assurance: Rigorous quality control measures are integrated into every phase of production, ensuring that our products surpass industry standards and meet the stringent expectations of our clients.

We serve a diverse range of industries, including construction, telecommunications, energy, oil & gas, chemical, digital media, audio video integration, security and access control, smart home, automation, instrumentation, IT, manufacturing, interior decoration, retail, healthcare, and more. Our versatile solutions cater to the unique demands of each sector, contributing to the success and efficiency of our clients' operations.

Commitment to sustainability: We are dedicated to environmentally conscious manufacturing practices. We are committed to reducing our carbon footprint by employing sustainable materials, energy-efficient processes, and eco-friendly packaging.

We go beyond manufacturing - we engineer excellence considering the project specific requirements.

SAY HELLO to explore the possibilities of superior metal enclosures, IT racks, cabinets, electrical junction boxes, and control desks.

Call us to discuss how our tailored solutions can elevate your projects to new heights.
